

For that big, fine Christmas dinner you must have FINE GROCERIES.

If you've never traded with us buy your Christmas groceries from us. Then you will ever afterward be a regular customer.

Our groceries are PURE.

Buy them; try them; and you will come again for them.

The L. M. WILLIAMS CO.,

meat market and grocery was bought by me over a month ago. During the month that I have been running it, I have received a flattering amount of business, and it is steadily increasing in volume, I have enlarged the grocery stock, so that meat and grocery orders can be delivered together, and delays eliminated.

The public is familiar with the excellent cold storage plant for keeping meats. We have the best of Western and Native meats, and have fish and oysters. Let us serve your meat and grocery needs.

Careful and courteous service, and promptness.

Caesar. At first as we translated, the Alps mountains inhabit a part of Italy called Lepontii. Next we found out that some of the people live on fish and eggs (sparrow eggs.) Then to end up the chapter it said that close to the ocean the river "mouhed." Who ever heard tell of a river talking.

We have six members on the Honor Roll this month: Mike and Lee Ellerbe, Ledbetter McKenzie, Frank Copeland, Grace McRae and Wm. Lide.

We are studying "Lorna Doone" who is an exceedingly beautiful and attractive girl. It is a very interesting story and we all enjoy it very much.

NINTH GRADE NEWS

We have just finished reading "Silas Marner," whose author is England's best woman writer. George Eliot is her pen name. It was thoroughly enjoyed by all the students. This is the second book we've completed this year.

The ninth grade has six pupils in the Honor Roll for November: Idell Meacham, Catherine Cole, Julia Maurice, John Ailred, Johnnie Benoit, Glenn Garrett.

The ninth grade is still having interesting lessons in English. We have been reading a splendid little book, "Pride and Prejudice," on the outside.

Our Ancient History is interesting, too. We are just beginning the study of Alexander the Great. I think we are all going to enjoy it.

Miss Finley was speaking of George Eliot on English class. Glenn Garrett: "Was he a woman?"

Pupil to Mr. Steadman on 9th grade Science Class: "How did the ocean ever get where it is?"

Mr. Steadman: "I don't know; that was done before I was born."

The ninth grade had three games of basket ball this meet. One with the 8th grade in which the score was 2-0; one with the 10th in which the score was 11-2 in our favor; one with the 11th in which the score was 2-0 in favor of the 11th.

Miss Groves: "How can we keep from mispronouncing words that we are not familiar with?"

C. R. to his neighbor: "By keeping our mouths shut."

SEVENTH GRADE

There were six out of the seventh grade who got on the Honor Roll: Willie Covington, Fred Hicks, Pearl Allen, Sarah Everett, Letha Chandler and Thelma Melton.

Lelia Cameron and Sarah Everett were in Miss Gaither's piano recital Thursday night.

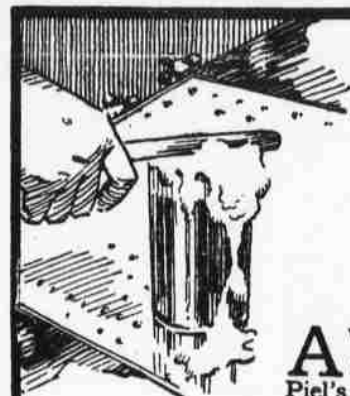

Miss Turner is getting up the play, Cinderella. Several from this room are to be invited.

Bessie Coley and Charlie Maness from this grade recited poems in Society this week.

EIGHTH GRADE NEWS

The third month of the school term ended last week leaving the eighth grade with ten Honor Roll cards to its credit. Those making the required grades were: Frances Allen, Rebecca Covington, Margie Gregory, Minnie Guthrie, Ruby Little, Robert Cole, Robert Covington, Walter Hasty, Thomas Leath and Charles Warner. This is an increase of four over last month's report.

The members of our basket ball team have shown a fine spirit in their games this week. Always eager to play, profiting by their mistakes and taking defeat like true sportsmen. They have held their own against the ninth and tenth,
